	id	id-5352805795246171877	abstract	This paper describes the first edition of the "Diachronic Lexical Seman-tics†(DIACR-Ita) task at the EVALITA2020 campaign. The task challenges participants to develop systems that can automatically detect if a given word has changed its meaning over time, given con-textual information from corpora. The		
	abstract	None		task, at its first edition, attracted 9 participant teams and collected a total of 36 sub-mission run
